Ram Ratna House, Oasis Complex, P.B. Marg, Worli, Mumbai – 400 013 (India)

Tel: +91-22-2494 9009 / 2492 4144, Fax: 2493 0203 / 2339

SPECIFICATION

RATNA VIS CONC

Polymeric Lubricant

APPEARANCE: crystals

PH of 1%: Approx 6.5

Application: **RATNA VIS CONC** should be diluted in concentration between 1- 2% in hot water then added to dye bath.

It is recommended to be added during the pretreatment and in dyebath at the commencement of dyeing, slightly warm water ensures thorough quick dispersion.

The quantity of **RATNA VIS CONC** is dependent upon substrate, loading and liquor ratio.

Dosage: 0.4 – 1 gpl (from diluted)

Storage: should be stored indoors in their original packing, which should be kept tightly sealed.

Shelf life: two years from the date of production.
